Bollards

Model Number	Dimensions	Construction
BOL450-G BOL800-G	Various sizes available	4 1/2" & 8" OD Structural steel tubing

Bike Bollards are the ideal dual-purpose parking stands. They can be used to limit access to bike-only trails and parking areas while providing riders with secure parking. They can also be used as security and/or traffic barriers. Bike bollards can park up to two bikes at a time.

Bollards are available in a galvanized, powder coat, or stainless steel finish. Options include a removable galvanized mount, a welded-on eye bolt for a chain, and round arms. Please call for a quote for other bike bollard sizes and options.
