Gramercy Bike Rack

Model Number	Dimensions	Construction
GRR-5-P GRR-7-P GRR-9-P	Various sizes available	3" Square steel tubing 2" Channel and 3/4" steel rods

With a subtle nostalgic touch, the Gramercy™ bike rack gives a nod to history with its old-fashioned, high-wheel bike design, built into a nine-bike capacity rack with the latest in functional capabilities. Handcrafted and hand-welded, the Gramercy™ offers superb strength and durability with a clever design that serves its purpose with a smile.

The Gramercy™ is constructed of 3" square steel tubing, 2" "C" channel, and 1/2" and 3/4" diameter steel rod. It is available in a galvanized, powder coat, or powder coated stainless steel finish. The ball is an option to the newel post style in locations where vandalism is a concern.
