

Remix Recycler Solo

Multiple configurations available

Model Number	Capacity	Outside Dimensions	Ship Weight
Remix single	17 gal.	28"W x 27"H x 11"D	28 lbs.
Remix Duo	12/2	38"W x 27H" x 11"D	33 lbs.

Remix receptacles are designed for multi-stream recycling and waste management in lobbies, conference and training rooms, offices and break rooms. Available in 2 sizes with a variety of lid configurations. REMIX can be matched to accommodate any volume and type of waste. Its elegant unassuming design makes it suitable for most interiors and its slim profile is ideal for placement in narrow hallways or high-traffic areas.

Its sturdy steel frame is concealed within a pre-finished aluminum composite material, which is highly resistant to denting yet is easy to clean. Finishes include Silver, Stainless, Bronze, Dark Bronze and White. They are supplied with matching labels identifying waste streams. Both bins feature a locking door, conveniently eliminating the need to lift heavy bags or liners. Also unique to REMIX are semi-rigid liners made of 100% reclaimed material from advertising billboards. REMIX lids are formaldehyde-free MDF with a powder-coated finish or optional solid surface materials.
