SEN-SNG-4-G	and double	Steel Rod
SEN-SNG-5-G		

NEW! The Sentry™ sets a new standard in bicycle parking. It features front wheel stops for positive parking, a 3/4" solid rod for "U" locks, 24" clearance between bikes, tamper-resistant construction, and ease of installation. The Sentry™ is constructed of 1-1/2" square steel tubing, 2" "C" channel and a 3/4" diameter steel rod. It is available in four different mounting options: surface flange, in-ground, post mount, and on rails, and two finishes: galvanized and powder coated. It also has the ability to park on one or both sides. Diagonal mounting is also an option. Please call us with your requirements. The Sentry™ rack is a compact, practical, and contemporary parking option. The racks can ship UPS.
