Complimenting the Breckenridge series is our upscale Bench with and without a Back.

Taking pride in details. Skilled craftsmen manufacture & inspect each piece for near invisible weld seams. Each piece of our Metal Site Furnishings is handcrafted, using high quality steel. After stringent metal preparation, each piece receives a standard application of 7-15 mils of colored polyurethane powder coating. This creates a perfectly durable finish that will keep it's color and last for years.
