ML-F-4	83"	4	Teal, Fog Grey, Plum, Slate Blue	Fog Grey	140 lbs.

Polypropylene Construction suitable for Indoor or Outdoor use. UV Stabilizers prevent fading from elements and direct sunlight.

The rugged 2" diameter, 14 gauge steel tube frame is welded to 2.5" x 3/8" steel bar stock that forms the sled base. The standard outdoor finish includes zinc plating and factory applied powder coat paint.

The high-impact polypropylene ribs are individually injection molded to allow for multiple configurations and simple replacement in case of damage or vandalism.
