Our 42" Round table with attached chair seating comes in our SQUARE PERFORATED steel pattern or our spun aluminum SOLID top option and is a free-standing unit. An umbrella hole comes standard. Due to the built in umbrella brace on the table, umbrella stands are not needed (umbrellas must be secured to tables). The PERFORATED table top, foot pad and seats are coated in our 1/4" PLASTISOL coating, while the SOLID top and framework is coated in our AAMA2604 05 compliant powder coating.

Please ask about other configurations, we have many more.
